

The Quill

2015 Eastern Spring Conclave Recap

By: *Daniel Zitzow and Aaron Wegscheid*

We arrived at Camp Wilderness on Friday, May 8, ready for a weekend of fun! The first thing we did was register, which meant we had to pay a visit to the Black Building. We then went to our campsite and set up our tent. After that, we went to the dining hall and had some small crackerbarrel food, where John Bisbee gave us patches for the Pa-Hin Lodge Press Corps. After the Pre-Ordeal Ceremony, we spent a cold night in our tent.

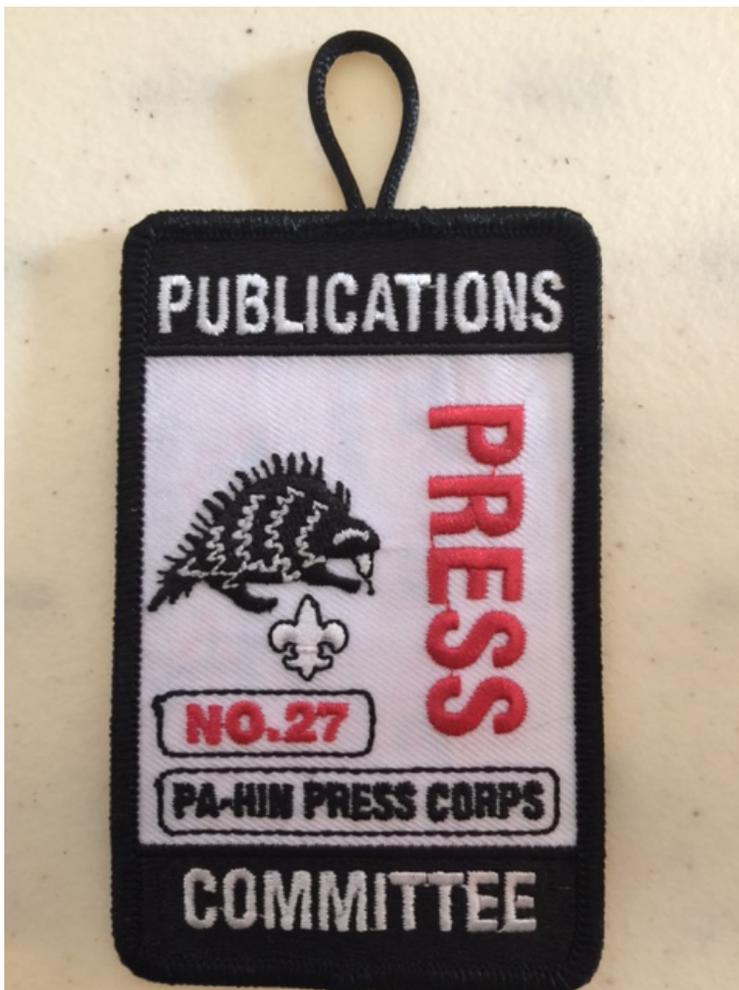

After a long night of restless sleep, we woke up and headed to the dining hall for breakfast, where we ate eggs, sausage, and potatoes. Flags took place at about 8:30am. We then attended the Brotherhood Candidate Session, which lasted until around 10:00am. While that happened, Ordeal Candidates were busy working on the new Frisbee Golf Course, planting trees, and tearing down the retaining wall at the Waterfront. At 10:00am, we got an hour or so to study or do whatever we felt!

Lunch was shortly after that, where we continued to prepare for our Brotherhood Ceremony. After a while, the Ordeal Ceremony took place at Quill Hill. Then, we ate dinner and served the Ordeal Candidates (they looked really hungry for the chicken Kiev that we served!) Chapter meetings were held until around 8:30pm, then everyone ventured their way out for a Brotherhood Ceremony. After it finished, we were free to

On Sunday, we woke up from a night of good sleep and went to Chapel at 7:00am. Breakfast followed shortly after, then clean-up. Check-out started at 9:00am, after all of the camp was clean. Good bye, Spring Conclave.

Overall, we provided a ton of service to Camp Wilderness! It would have taken both Ranger Andy and Ranger Josh until July 4th if they were to complete the projects from our weekend at Camp Wilderness!
